# INDUSTRIAL PIPING SOLUTION

## Description

We provide complete industrial piping installation services for various plant and utility requirements. Our expertise covers MS, SS, and GI piping systems for water, air, steam, gas, and process lines. From route planning and installation to alignment, pressure testing, and commissioning, we ensure leak-proof performance and strict adherence to safety standards. Our team efficiently handles both minor modifications and large-scale plant piping projects, delivering reliable and long-lasting solutions within committed timelines.

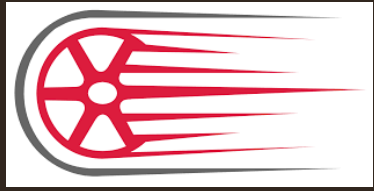

**OPTIMUS ENTERPRISE PRIVATE LIMITED**

# **PUFF PANEL & ACOUSTIC SOLUTIONS**

## **Description**

We provide complete Puff (PUF) Panel and Acoustic Room solutions designed for thermal insulation and sound control applications. Our services include supply and installation of insulated panels for clean rooms, partitions, cold storage areas, and industrial enclosures. We also develop acoustic rooms and soundproof cabins to reduce noise levels and enhance workplace safety. With precise installation and quality materials, we ensure durability, energy efficiency, and effective noise reduction. Our solutions are customized to meet specific industrial and commercial requirements

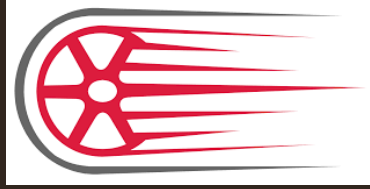

**OPTIMUS ENTERPRISE PRIVATE LIMITED**

# **INDUSTRIAL CHILLER INSTALLATION**

## **Description**

We provide complete industrial chiller installation services for efficient and reliable process cooling applications. Our expertise includes installation of air-cooled and water-cooled chillers, chilled water piping, pumps, cooling towers, and associated control systems. From system planning and equipment positioning to commissioning and performance testing, we ensure optimal efficiency, energy savings, and smooth operation. Our team follows strict safety and quality standards to deliver dependable cooling solutions tailored to industrial requirements.

# INDUSTRIAL ELECTRICAL SOLUTIONS

## Description

We provide comprehensive industrial electrical services covering power distribution, control systems, and plant electrification works. Our expertise includes installation of panels, cable laying and termination, HT/LT systems, lighting systems, earthing, and equipment wiring. We also undertake maintenance, troubleshooting, and system upgrades to ensure safe and uninterrupted operations. With a focus on safety standards, precision workmanship, and timely execution, we deliver reliable and energy-efficient electrical solutions tailored to industrial requirements.
